CGPA: 7.8 / 10

PROFESSIONAL SUMMARY

Mobile developer specializing in Flutter and Kotlin. Published 2 apps on Play Store with 5,000+ downloads. Built cross-platform apps with Firebase backend, REST API integration, and payment gateways. 1 internship at a fintech startup.

EDUCATION

B.Tech — Information Technology

2021 – 2025

SSN College of Engineering, Anna University

TECHNICAL SKILLS

Mobile	Flutter (Dart), Kotlin (Android Native), React Native (basics)
Backend Integration	Firebase (Firestore, Auth, FCM), REST APIs, GraphQL
State Management	Provider, Riverpod, BLoC, ViewModel
Tools	Android Studio, VS Code, Postman, Git, Fastlane
UI Libraries	Material Design, Cupertino, custom animations
Languages	Dart, Kotlin, Java, Python

WORK EXPERIENCE

Flutter Developer Intern — PhonePe, Bengaluru

May 2024 – Jul 2024

- Developed 3 new UI screens in the PhonePe Flutter codebase with pixel-perfect implementation.
- Fixed 15 reported bugs and improved app startup time by 22% through lazy initialization.
- Wrote unit and widget tests achieving 80%+ code coverage for assigned modules.

PROJECTS

Expense Tracker — MoneyWise (Play Store)

- Built cross-platform Flutter app with budget categories, charts, recurring expenses, and CSV export.
- 5,200+ downloads, 4.3★ rating. Monetized with Google AdMob.

Food Recipe App — TastyBites

- Flutter app with Spoonacular API integration, offline caching, favorites, and meal planner.
- Implemented BLoC pattern with clean architecture.

Real-time Location Tracker (Kotlin)

- Native Android app using Google Maps SDK, background location tracking, and Firebase Realtime Database.

CERTIFICATIONS

- Flutter & Dart — The Complete Guide (Udemy, 2023)
- Android Development with Kotlin (Google Developer Training, 2023)
- Firebase Certification — Google (2024)
