WORK EXPERIENCE

Data Analyst Intern — Flipkart, Bengaluru

Jun 2024 – Aug 2024

- Analyzed seller performance data (5M+ rows) using SQL and Python to identify revenue leakage patterns.
- Built Tableau dashboard used by 20+ product managers for weekly KPI tracking.
- Ran A/B test on product listing page; 12% uplift in click-through rate ($p < 0.05$).

Business Analyst Intern — Zomato, Gurugram

Dec 2023 – Feb 2024

- Created cohort retention analysis revealing 3-month drop-off patterns in new user acquisition.
- Automated weekly reporting pipeline using Python, saving 8 hours/week.

PROJECTS

Sales Performance Dashboard — Retail Chain

- Built end-to-end Tableau dashboard connecting to PostgreSQL with drill-down by region, product, and sales rep.
- Identified INR 2.3 Cr revenue gap from underperforming SKUs.

Customer Churn Analysis

- Logistic regression + decision tree on telecom dataset (10k customers). 82% accuracy.
- Tableau storyboard presenting churn drivers to simulated executive audience.

CERTIFICATIONS

- Google Data Analytics Professional Certificate (Coursera, 2024)
- Tableau Desktop Specialist (2024)
- SQL for Data Science — UC Davis (Coursera, 2023)
